Total comments on Sawtooth - 9 organizations, 85 individuals.	Idaho: Specific - Propose active management including timber, mechanical treatment and prescribed fire to protect WUI around Burgdorf/Secesh Meadows. Support active management in those timber stands that are at high risk from abnormally high intensity fire. Active restoration should be applied to those areas that burned over in the hot fires of 1994 and 2000 where natural reforestation has not occurred. We support the use of roads both specified and temporary to help achieve all of the above goals where they meet all rules, laws and procedures. We also support ensuring access available to any future mining in this area.	N/A	N/A
